

"As we have continued to monitor Covid-19 infection rates and changes in both legislation and state policy concerning the mandatory use of masks in public spaces, we are updating our mask policy. Please be advised that masks are no longer required to enter the sanctuary for church worship services or other buildings on campus on Sundays. We continue to support the use of masks for those who wish to continue wearing them, particularly our seasoned members and anyone with a compromised immune system.

We will continue to monitor the temperature of church attendees. In addition, we ask that, anyone who feels ill or exhibits any symptoms, which could be associated with the flu or Covid-19, they remain home and join one of our virtual worship services."
