

Children's Action Alliance

A Voice for Arizona's Children Since 1988

August 2, 2012

Just in time for back-to-school, KidsCare II enrollment is open to **new** applications from uninsured children. A limited number of children of all ages can get this affordable health coverage if they meet the program requirements – **whether or not** they have ever applied before and whether or not they have ever been on the waiting list.

This opportunity is available until December 31, 2013 thanks to funds from three Arizona hospitals and a generous federal match. There are still many spots open, so help us spread the word far and wide. Click below to get copies of the new flyer in English and Spanish.

KidsCare II provides the same comprehensive health coverage that helps kids grow and thrive, including well visits to the doctor, dental coverage, behavioral health services, and hospitalizations, all for an affordable monthly premium. Children can qualify if their family income is below 175% of the federal poverty level. [Click here to see which incomes qualify.](#)
